Michal Pec aka Mihau was born in Masuria, Poland in 1977, he moved with his family to Germany in 1988. He discovered his love to electronic music in the early 90 s as a friend took him to a former table dance bar, still lined in red velvet but now transformed to an underground House and Jungle Club. After some years going to parties all over Germany he bought a pair of Technics and a simple 2 channel mixer and has been a regular customer at his local record dealer. Around the turn of the millennium he and nearly his whole circle of friends moved to Berlin, soon they started making small parties and after hours. As a logical extension he and his former business associate started the Label "Stil vor Talent" but they separated a few years later.

Mihau played at the legendary Berlin underground spot Hangar and Clubs like Berghain Kantine, Wilde Renate, Chalet and Studio54.

His sets are always unique an eclectic selection moving from Deep House to UK Bass, Break Beats, Deep Tech and Tech House.
